Underwriting & Workflow Solutions. Our UWS segment combines property, mortgage, and consumer information to provide comprehensive mortgage origination and monitoring solutions, including, underwriting-related solutions, and data-enabled valuations and appraisals. We have also developed proprietary technology and software platforms to access, automate, and track this information, and assist our clients with vetting and onboarding prospects, meeting compliance regulations and understanding, evaluating, and monitoring property values. Our UWS solutions include property tax solutions, valuation solutions, and flood data solutions in North America. The segment's primary clients are large, national mortgage lenders and servicers, but we also serve regional mortgage lenders and brokers, credit unions, commercial banks, fixed-income investors, government agencies, and property and casualty insurance companies.
